

Lackawanna Trail Health & Safety Plan Review

January 2023

Overview

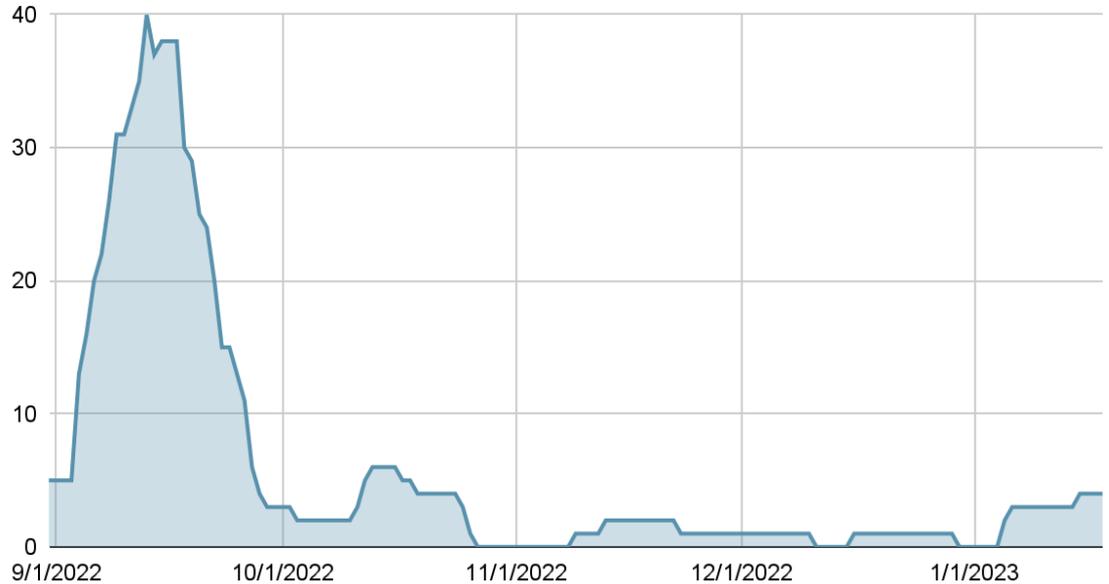

The Lackawanna Trail Health & Safety Plan was presented and reviewed at a public meeting, adopted by the Board of Directors on August 8th, 2022, and posted on our district website. Since classes began on August 31st, it has been carried out as planned. As required by the American Rescue Plan, it must be reviewed at least every six months, or if the Centers for Disease Control recommend significant changes. Any and all proposed changes must be reviewed by the community and board approved.

Communication & Transparency

A COVID-19 Information Center was set up on our main web page to serve as a quick guide to relevant information, links to government and health agencies, and included a COVID-19 spreadsheet to inform the public of daily positive cases as well as a 14 day rolling average.

Rolling Two Week Totals

Conclusion

I do not recommend adopting any revisions to the current Health & Safety Plan. It was well developed, carried out as planned, the CDC has not recommended any significant changes, and our rolling totals peaked in the fall and have remained consistently low.
